September 17, 2021

Notification for PAXSTORE users:

This is a final update to the date for the Maintenance Window. With this maintenance, PAX will enhance the PAXSTORE for the North American Group to a more robust infrastructure to strengthen our redundancy.

With this update, static IP addresses to reach the PAXSTORE will move from being static to dynamic. The Static URL and Ports for each Device series is listed below:

URL	Port	Protocol	Usage
*.paxstore.us	80 and 443	http or Https	A and E Series Devices
mpush1.paxstore.us	3000	HTTP	A and E Series Devices
mpush2.paxstore.us	3000	HTTP	A and E Series Devices
t.paxstore.us	9080	HTTPS	A, E, S, and D Series Devices

There may be intermittent issues with connecting to the PAXSTORE during this time. The ability to update device configurations or perform device health checks will be impacted during this time. Transaction processing through the Bluefin PayConex™ gateway will not be impacted.

- Start Time - September 17, 2021 11:00 pm (EST)
- End Time – September 18 12:00 pm (noon EST)

Please contact us paxstore.support@pax.us or (877) 859-0099 if you experience any difficulties after the scheduled time allowed has ended.

Best regards,

Bluefin
